FIG. 14

FIG. 16

FIG. 17 is a cross-sectional view of a pixel portion of a display device, showing a driver circuit and a pixel circuit. The driver circuit includes a PMOS transistor (200) and an NMOS transistor (201). The pixel circuit includes a switching TFT (204) and a storage capacitor (205). The pixel portion is divided into a driver circuit portion and a pixel circuit portion. The driver circuit portion includes the PMOS transistor (200) and the NMOS transistor (201). The pixel circuit portion includes the switching TFT (204) and the storage capacitor (205). The pixel portion is further divided into a driver circuit portion and a pixel circuit portion. The driver circuit portion includes the PMOS transistor (200) and the NMOS transistor (201). The pixel circuit portion includes the switching TFT (204) and the storage capacitor (205).
